Internship update: Sept'17

2017 Internship projects to-date

- Quick Numbers for 2017
  - Completed: 9 projects
  - In progress: 7 projects (expect 3 of these to be completed in Sept.)
  - Open for interns: 7 projects
- Internship projects are also posted on the Linux Foundation jobs board: https://jobs.lever.co/linuxfoundation.org?team=Internships
- There's room in the Internship budget to pay for "open" projects

Internship notes

- "Quarterly" start dates helped ease administration of check-ins and stipend payments
  - Strongly recommend avoiding working with interns over the December holiday period
- Please escalate any issues with interns to Ray ASAP

  - e.g. lack of progress, interns not being responsive, etc.
- Investigating inviting interns to the Plugfest in December
