Shreya Gupta

Sl. No	Topic	Presenters	Notes
1	Development Update ☐ T-Rex Stats Update ☐ DPPD-Prox with Vineperf ☐ Pod-Python API ☐ Userspace CNI ☐ Xtesting Integration ☐ Migration - Activities (CI)		1. T-Rex Latency and Dropped-packets per-trials logging is added. TODO: Testing. 2. DPPD-Prox - Patch in SampleVNF project is not yet closed.. This will be updated once samplevnf patch is closed. a. **Luc: Bi-Directional support is WIP.** 3. Python-API - Will open for review today. 4. Userspace - Will delay change of ImagePullPolicy to IfNotPresent only after we submit the image to opnfv How to publish to https://hub.docker.com/u/anuket ? Yury: For opnfv, its done through releng. TODO: ViNePerf to submit patch to releng (reference: gerrit/yury/releng) Migration: fix the CI (releng), update the documentation. CNI - calico Parth: May find a volunteer to explore other (3) CNIs.
2	Xtesting Integration Options		 Orchestrator Pod (Rapid) have to publish results so that it can be assessed through K8S APIs only – Ex: kubectl logs rapid.
3	Update from Interns
