

RC2 - Meetings

Every Wednesdays at 1500 PM UTC

Zoom: <https://zoom.us/j/504768362?pwd=Y283SzQrZ3lWV1U2ZHCweXR5Y2J4UT09>

2021-08-18

participants

- [Cedric Ollivier](#)
- [Rihab Banday](#)
- [Pankaj Goyal](#) (Microsoft)
- [Al Morton](#) (AT&T)
- [Timo Hauswirth](#) (LINBIT)

pull requests

- updated Alpine to 3.14 (python3.9)
- Anuket Assured documentation https://gitlab.com/lnetworking/cvc/anuket-assured-docs/-/merge_requests/2
 - no stress testing is part of CNTT RC1 or RC2 (they couldn't be executed before onboarding in real-world)
 - ipv6 tests are mandatory in CNTT RC1 (they should be enabled in RC2 too)
 - BGPVPN and SFC are excluded from RC1 (nothing is optional in RC1/RC2 right now)
 - [Cedric Ollivier](#) I would suggest us to leverage the common execution selected by Anuket RCX for all badges (else the reviews would be a mess)

actions

- [Cedric Ollivier](#) to open a pull request blacklisting gitRepo testing in RC2 (+backport to Kali)
 - <https://gerrit.opnfv.org/gerrit/c/functest-kubernetes/+72769>
 - <https://github.com/kubernetes-sigs/kind/issues/2356>

AOB

- Anuket Assured meetings are the CVC meetings on Mondays
- vineperf is under development targeting next RC2 release

2021-08-11

participants

- [Cedric Ollivier](#)
- [Pankaj Goyal](#) (Microsoft)

pull requests

- <https://github.com/cntt-n/CNTT/pull/2529> (1 absolute url fixed)

actions

- [Cedric Ollivier](#) to open a pull request blacklisting gitRepo testing in RC2 (+backport to Kali)
 - <https://gerrit.opnfv.org/gerrit/c/functest-kubernetes/+72769>
 - <https://github.com/kubernetes-sigs/kind/issues/2356>
- [Cedric Ollivier](#) to open pull request tracking the classical Functest Kubernetes updates
 - update Alpine to 3.14 (python3.9)
 - roll the Kubernetes releases
