- trial conversion of RC2 looks very nice
- There seems to be an agreement that we should move to rst based documentation
- We should have an OK form the specification sub-project leads / WSL-s Let's have a discussion about the move in the next TSC meeting
- We should agree in a time for the change
 - Maybe between M5 and Lakelse signoff (11/30/2021 and 7/12/2021)
 - This should be a focused effort with dedicated volunteers with responsible areas (e.g: [Gergely Csatri](#) is responsible for RA2)
- Branching strategy
 - Create a feature branch for the rst conversion
 - Create pr-s against feature branch for the specific documents (RM, RA*, RI*, RC* and common parts)
- Next steps
 - **A:** [Gergely Csatri](#) send a call for action mail and create a wiki to follow up the progress
