Moselle Software Project Participation

This table tracks the projects that committed to the release by M1 and includes a link to the project-level release plan.

Process:

1. Copy template to your project work space (alternatively, if you've completed the template for a previous Anuket release, copy your previous plan and update it).
2. Fill in the template for the current release
3. Add your project name, with a link to the project plan in the table below
