

Moselle RI / RC Planning

The items on this page are determined during M1 of the release process

Item	RA Dependency (version)	Validation Plan (description or link)	Notes
RI-2	RA-2 Lakelse	RC-2 testsuite will be used to validate the code in GitLab. The version of the RC-2 testsuite will be based on the Kubernetes version deployed by RI2 Kuberef.	Release criteria needs to be defined/documented. https://jira.anuket.io/browse/KUB-58 https://jira.anuket.io/browse/KUB-47 https://jira.anuket.io/browse/KUB-59 https://jira.anuket.io/browse/KUB-6 https://jira.anuket.io/browse/KUB-61
RC-2	RA-2 Lakelse	Based on Kubernetes 1.22.	Test Cases will be defined based on Lakelse

New or updated RC development

Item	New or Update	Description	Purpose / Objectives	Notes	Contributors (multiple contributors per item is welcome)
2884	New	Align RC2 with Lakelse & Mosell RA2
