

Leftovers of the OPNFV CNTT merger

What	What to do	How to get there	Who makes the next step	Status
https://docs.opnfv.org/	Redirect to docs.anuket.io	- Raise a simple DNS redirect request to LF IT - Also we should add a pointer to the original readthedocs OPNFV Jerma documentation	Gergely Csatari	- Maybe we should add some explanation instead to docs.opnfv.org - No need for explanation, redirect is sufficient. - Done
gerrit.opnfv.org/	Redirect to gerrit.anuket.io with keeping the original gerrit.opnfv.org working	Raise a request to LF IT	Gergely Csatari	
https://www.opnfv.org/	Redirect to anuket.io with keeping the original www.opnfv.org	Raise a simple DNS redirect request to LF IT	Gergely Csatari	
https://github.com/cntt-n/cntt	Move to https://github.com/anuket/specifications	- Get the Anuket org - Rename the org to anuket - Rename the repo to specifications - Get Sphinx credentials - Reconfigure Sphinx - Archive the sphinx extensions	Georg Kunz	
Anuket on GitLab	Remove dead repos from GitLab	- Collect the repos what we should remove from GitLab - Remove them	Gergely Csatari	
cntt.readthedocs.io/	Change to https://anuket.readthedocs.io/	- Migrate the builds from cntt.readthedocs.io - Update the intersphinx references - Update website		
LF Networking	Webpage contains OPNFV	Pankaj Goyal to find the page and report it to Jill Lovato	Pankaj Goyal	
Generic page to record issues	- A confluence page to collect remaining leftovers - Move this table also there	Create a confluence and move this table there	Gergely Csatari	Done
https://docs.anuket.io	https://docs.anuket.io/en/latest/ what is wrong. It should redirect to https://cntt.readthedocs.io	file an LF IT issue about this.	Emma Foley	Issue filed. Now we are waiting for LF IT.
