Release information

- Nile:
    - Kickoff: August 2
    - Release definition: August 16
    - Release scope: September 13

GSMA document edition

- Tox.ini
- New togsma.py to edit the GSMA document
- Issues on the current docx document:
    - References not used in text : 2 to 6. Check if other references unused. Karine will remove them from refs.bib
    - In refsbib, reorder to have NG.126 first and RFC specs in right order
    - Lower case letters for sections titles in requirements' tables (last column). Cédric will try to solve it with a program, if not possible, we will have to change text manually. Cédric will provide a status tomorrow.
- PRs under review:
    - PR 3162 approved and merged
    - PR 3165 approved and merged
    - PR 3170 Cédric will work on it
- When all issues are solved in RST, the docx will be generated and Pankaj will apply the GSMA template
- The target is to send the docx document to Tom and Javier on Wednesday.
