Some notes:

- Some of the contribution types outlined in the charter are not captured in Insights (e.g., blog posts, whitepapers, etc.). ONAP handles this by providing the automated data and leaving it to contributors to provide information about those contributions with the approval of the TSC to adjust their total. Recommendation to use the same process during the PTL active contributor review timeframe for Anuket.
- Because some portion of the Doc projects 2021 contributions were not captured in Insights (due to GitLab POC work), recommendation is to use the PTL review process to ensure active contributors for that work are not lost. (Note that other projects doing Gitlab POC work are mirrored with existing Gerrit and so therefore their work has been captured in Insights).
