RM Chapter 8 removal discussion

- Most content is already in RC1
 Section 8.2.4 and the second half of section 8.3.1 have value but may not be needed in the RM.

 They are common to RC1 and RC2, which presents an issue.
 Do we duplicate this in RC1, RC2?
 Do we leave this in RM, where it's low-level compared to the span of RM?
 Do we create a RC-Common area, and who has rights to review/approve content in that section (e.g. /doc/ref_cert/common/<files>?
 Unknown User (shostak) to bounce off of Rabi for guidance on one of these 3 options

 Once the previous issue is decided, we can remove Chapter 8 contents entirely and re-start.
