Pieman Release Progress

M5 (14/05/2023)

- ☑ Final documentation completed
- ☑ For non specification sub-projects the remaining Jira issues assigned to the release closed or pushed to next release by the PTL-s. Movement of the issues reported to the TSC in a mail or in a TSC meeting.

  There are no non specification sub-projects in Pieman,

- ☐ Prepare release artifacts
  - Tag the version of artifacts to be released
    - ☑ releng job updated to use release branch instead of master
  - PTLs collect all artifact references and communicates them to LF staff
  - LF staff moves artifacts to hosting location and provides URLs to the PTL-s and the TSC
  - PTL-s verify URLs
  - PTL provides confirmed URL list to LF staff and the TSC for publication on the website
  - There are no non specification sub-projects in Pieman
  - PTL-s verify that there are no unmerged patches or PR-s. In case of any unmerged patches or PR-s notify the TSC.
  - A volunteer TSC member or LF staff creates release branch for GitHub
    - Volunteer: Gergely Csatari
  - PTL-s create sub-project specific release highlights and report the creation to the TSC
  - TSC drafts release announcement blog post and sends it to LF staff for publication
    - Beth Cohen started to work on it, but it will be ready only tomorrow
  - TSC member finalizes version numbering for the specification projects
    - Volunteer: Gergely Csatari

Notes on M5
