

Orinoco Release Highlights

Project, Workstream, or committee	Best contact for followup questions (Use @ notation)	What has changed?	Why is this significant/beneficial to a user/consumer of Anuket?	Notes, links to more information, etc.
RA2	Riccardo Gasparetto Stori	<ul style="list-style-type: none"> GSMA Publication - NG.139 docx created and submitted to GSMA Update Kubernetes version - to 1.26 Add Express Data Path (XDP) Fixes: clarify gaps, security requirements 	<ul style="list-style-type: none"> RA2 is consolidating as the most comprehensive industry wide set of specifications for Kubernetes Telco Cloud - acceptance as a GSMA standard is confirming this status. K8s release upgrade keeps RA2 aligned with the upstream communities and provides new features and fixes (e.g. IPv6 Dual Stack and Pod Security Admission Controller) Express Data Path is beneficial to data plane users of Anuket as a Linux-native network acceleration technology 	<p>RA2 closed PRs:</p> <p>https://github.com/anuket-project/anuket-specifications/pulls?q=is%3Aclosed+is%3Apr+project%3Aanuket-project%2F1+</p>
RM	Walter Kozlowski	<ol style="list-style-type: none"> Added section on O-RAN alignment, O-Cloud requirements, Issue #3297 Added information about Security HW assist, Issue #3296 Introduced AF_XDP technology commentary, Issue #3314 Added Hugepages metrics to Table 4.8, Issue #3224 	<ol style="list-style-type: none"> Alignment of Anuket and O-RAN can be beneficial. It would enable the operators to have an internal Telco Cloud that supports both Core and RAN Network Functions. Server hardware architectures offer various technologies to assist protecting data in use. Use of this new socket type (AF_XDP) for high performance packet processing. Metrics can be used for design optimization, requirements based on ETSI GS NFV-TST 008 V3.5.1. 	<p>[RM CH08] Additions of O-RAN alignment - Final by TFFredberg · Pull Request #3371 · anuket-project/anuket-specifications (github.com)</p> <p>[RM Ch7] Security HW Assist for Data in Use by petorre · Pull Request #3319 · anuket-project/anuket-specifications (github.com)</p> <p>[RM Ch3 Ch4 Ch10] Introduce AF_XDP by petorre · Pull Request #3314 · anuket-project/anuket-specifications (github.com)</p> <p>[RM] Added Hugepages metrics to Table 4.8 by pgoyal01 · Pull Request #3328 · anuket-project/anuket-specifications (github.com)</p>
