Action item register

- ☒ Trevor Bramwell to check how difficult is to move pr-s, issues, branches and projects from GitHub to GitLab?
Gitlab will import all Github Issues & PRs (comments and labels), code (all branches), wikis, and milestones. If a Github user has not logged into Gitlab and associated their Github ID, PR and issue comments will be associated with the importing user.
We will want to ensure CNTT contributors have logged into Gitlab with their Github ID before the import. I will confirm if this is retroactive (user logs in after import) or not.
 - It does not happen automatically
 - There is a setting in GitHub to expose the email of the users and GitLab needs to see the emails
 - The data can be imported again
 - The GitHub account needs to be associated with GitLab
- ☒ Trevor Bramwell clarify the migration plan
The migration plan can be found here. Please direct any comments or questions to the mailing list or add the topic to this meeting.
 - The provided plan satisfies [this](#)
- ☐ [Trevor Bramwell](#) clarify how can we adopt the current user roles of the CNTT repo to GitLab
 - Will be checked next week
- ☒ Gergely Csatai ensure that we can have a discussion with someone from LF Legal team about the charter.
 - ☐ We only need to get a review from LF Legal of the charter
 - ☐ We have a connection to LF Legal (Steve Winslow <swinslow@linuxfoundation.org>)
- ☒ Gergely Csatai check the action items status from Trevor Bramwell
 - Sent a mail and got no response
 - Done

Organisation topics

- N/A

Technical topics

[Anuket Charter and TSC Procedures revisions](#) - Gergely Csatai - 50 min

- [Anuket Charter proposal for commenting](#) - A resolution for all comments proposed.
 - [Gergely Csatari](#) will create the redliner and send it to Steve Winslow
- [Anuket TSC Operations and Procedures document proposal for commenting](#)
- [Anuket Project Operations and Guidelines document for commenting](#)
