

2021-05-06 - [Anuket RA2] - Meeting Agenda and Minutes

Attendees:

- [Riccardo Gasparetto Stori](#) (Vodafone)
- [Cedric Ollivier](#) (Orange)

Agenda and Minutes:

- Antitrust notices
 - [Linux Foundation Anti-Trust Policy Notice](#)
 - [GSMA Anti-Trust Policy Notice](#)
- Walk-in items
 - [PR 2355](#): Require Node Feature Discovery and Device Plugins
 - content is ok, can also mention dev plugins are needed for SRIOV as well
 - introduce the topic of Device plugins within [issue 2255](#) - in the architecture
 - only one comment pending, then ok to go
 - [PR 2378](#) - k8s api policy
 - opened <https://github.com/cntt-n/CNTT/issues/2380> for feature gates
 - cluster LCM: <https://github.com/cntt-n/CNTT/pull/2373>
 - <https://github.com/cntt-n/CNTT/pull/2400/files>
 - [Cedric Ollivier](#) has added all relevant SIG features, except SIG storage (needs a deep dive to select relevant & non-proprietary flags)
 - what is working already is already flagged as mandatory
 - rc2 will then adapt - some test implementations may be skipped bc they're GCP specific,
 - ipv6 dual stack not yet enabled
 - functest 1.21 about to be released <https://build.opnfv.org/ci/job/functest-kubernetes-v1.21-daily/>
 - It remains sig-storage which asks for a deep dive on both features and drivers. As starting point, the features list conforms with the upstream K8s gates (kind).
It allows RA2 team to update the mandatory choices which RC2 will conform. It's worth mentioning that a few related test could be still skipped in RC2 (only for gce, disruptive, alpha, etc.).
- AOB & Project review
 - <https://github.com/cntt-n/CNTT/projects/10>
- Permanent FYI
 - CNF Working Group within CNCF - <https://docs.google.com/document/d/1YFimQftjkTUsxNGTsKdakovP7cJtJgCTqViH2kwJOrc/edit>
 - This also incorporates the previous requirements gathering exercise
- Actions/Next steps
 - June 7/10 virtual Face to Face - will need to come up with a list of topics to discuss, to inform the wider community and get feedback
 - Please register <https://community.lfnetworking.org/events/details/linux-foundation-lfn-developer-testing-forums-presents-lfn-developer-testing-forum-june-2021/>
 - Topics can be created [here](#) under the Section titled "Create a topic Proposal"
 - Feb vf2f: <https://wiki.lfnetworking.org/display/LN/2021+February+Developer+Topic+Proposals#id-2021FebruaryDeveloperTopicProposals-AnuketTopics>
